## Comprehensive Service

Among our services, is the comprehensive capability to **saw cut** the joint to specifications, **clean and prepare the joint** for the installation of the seal from various manufacturers like **Pecora, Sika, and D.S. Brown**. Our comprehensive service includes the disposal of wastewater and eliminates the need to maintain the condition of the joint between saw cutting and the installation of the sealant because we cut, clean, and install in one service.

Quality equipment like our Husqvarna FS 4800D and Delastall Kompessor coupled with our ability to efficiently manage our labor force allow us to provide this top-notch service.

## Concrete Joint Seals

Tokunaga Masonry, Inc. provides the knowledge and experience to install both construction sealants and compression seals from various manufacturers according to the desired specifications.

### Compression Seals

### Sealants
